TAKES OFF DANDRUFF, HAIR STOPS FALLING

Save your Hair! Get a 25 cent bottle of Danderine right now—Also stops itching scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf. There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Dr. Bowen of Brunswick made several speeches in this and Carroll counties during the primary campaign. The Dr. is known to be an all round accomplished gentleman, but his hearers were not only delighted with his speaking ability but much surprised to learn that we had such an orator amongst us for so long without it being known. Dr. Bowen is not only a very fluent speaker but logical and forceful and has as good platform form as any who have appeared on the rostrum in this section for years. While he spoke on many subjects pertaining to Democratic accomplishments and lauded the National administration and gave convincing reasons why Mr. Wilson should be reelected, Dr. Bowen was also campaigning for the nomination of Col. Fred Gardner and that his work was effective is indicated by Col. Gardner's vote in this and Carroll counties.

Fire broke out in the cemetery Thursday of last week and did considerable damage. Fences and trees were badly burned, evergreen trees in the path of the flames being striped of limbs. Just how the fire started is not known, but it is certain that if heroic fighting had not been done by chief Tisdale and others, our city of the dead would have been in a sad plight from one side to all others.

This experience leads us to remark that much care should be taken against fire getting started in the dead grass any where in the city. We have no water-works, fire fighting apparatus or water to fill buckets with.
